### **Guest lecture on the topic “ESR spectroscopy”**

The Department of Chemistry at Amolakchand Mahavidyalaya, Yavatmal, hosted a captivating Guest Lecture on "ESR Spectroscopy" to enhance the understanding of research scholars and students. Dr. Swapnil Warkhade, a distinguished Scientist from CSIR-CIMFR, Ranchi, Jharkhand, took charge of guiding the audience.

The lecture, attended by 150 enthusiastic participants, comprised research scholars actively engaged in ongoing research, as well as PG and UG students of the institute. The primary objective was to provide a comprehensive grasp of theoretical and conceptual aspects related to ESR spectroscopy.

Dr. Warkhade's expertise illuminated the complex subject matter, leaving an indelible impact on the attendees. The knowledge imparted is anticipated to be invaluable for both current research pursuits and future academic endeavors.

The success of the event was acknowledged by Dr. Rammanohar Mishra, who extended congratulations to Dr. T. P. Chavhan, Dr. P. N. Muskawar, and Dr. M. W. Bhade for their commendable efforts in organizing the lecture. The Guest Lecture served as a platform for the exchange of knowledge, fostering a deeper understanding of this advanced scientific technique among the academic community.
